M : How many stops?

〔問題 B〕

OK. I'll tell you about the man I saw yesterday. I was shopping with my classmate, when we saw the man enter the store. I think he was as tall as my father. My father is about 175cm. And how old was he? Hmm..., he looked older than my sister. My sister goes to university, and she is 22 years old. We were surprised that his hair was so long! Maybe as long as mine. He was wearing a blue jacket and a large hat. Ah...I remember! He had a guitar case like a musician. He was wearing dark round sunglasses, so unfortunately I couldn't see the color of his eyes. I hope that helps.
